

PRODUCT SUMMARY

Instantly light up any scene or area with the battery powered Nomad® Prime and P56 Scene Lights. These cordless, rechargeable LED lights can operate as a spotlight or flood light (by adding or removing the diffuser lens). The Nomad® Prime can be strapped around the shoulder (like a bazooka) and light the way to the desired location. The P56 provides 95 CRI 5600K daylight balanced lighting for production quality lighting. They set up in seconds by deploying the built-in tripod legs, raising the telescoping pole, and adjusting the light head. These lights extend tall enough to clear people's heads, which minimizes shadows and accidental blinding.

FEATURES

- Area light and spotlight
- Up to 24 hours of battery life
- Collapses into bazooka light
- 95 CRI 5600K daylight balanced lighting (P56)
- Rechargeable Li-Ion battery system
- Recharges in 4 hours
- Waterproof and Impact Resistant
- Fire Resistant: meets NFPA 1971-8.6 (2013) requirements

MATERIALS

- Nylon 66 housing; 6061-T6 aluminum head
- Polycarbonate sliding diffuser lens
