CUSTOMERS LOVE PELLETS, INC. BECAUSE:

- We do not remove the extra large or more unique pellets (birds, odd rodents, etc.) and charge more for them. Nor do we price our pellets by the 1/2 inch.
- Our quality is unsurpassed.
- Pellets, Inc. is the top supplier of owl pellets in North America.
- Our pellets are heat sterilized and tested by an independent testing lab to ensure that Pellets, Inc. meets or exceeds all requirements of the consumer protection agency.
- We are strong stewards of our resource. Both personally and collectively, our owl pellet collectors have installed hundreds of barn owl nest boxes as well as educated land owners about the benefits of owl stewardship.
- We love what we do and are here to answer your questions and support your owl pellet labs via phone or e-mail.

QUALITY

At Pellets Inc., we take pride in providing the best barn owl pellets and the most complete line of support products available in the world. Our customers love our products, ask around.

SERVICE

All orders are shipped the next business day following receipt of your order. Please visit our website www.pelletsinc.com.

GUARANTEE

Because we collect, heat-sterilize, sort, wrap, and ship every pellet we sell, we guarantee the highest quality and service.

From kindergarten to the collegiate level. Owl pellets meet the National Standards, Content Standard C: Grade 5-8, Populations and Ecosystems.
As the leader in the owl pellet industry, Pellets Inc. has developed and created the new “Perfect Pellet™”. This pellet replica is manufactured using state of the art plastics technology. Each synthetic pellet contains a virtually complete replica of one of the common barn owls prey species, either the rodent, mole or bird skeletons. It is a bit easier to dissect than organic owl pellets. The same great lab can be experienced but without the confusion of partial or multiple animal skeletons.
