M8 Spanner

Top down view

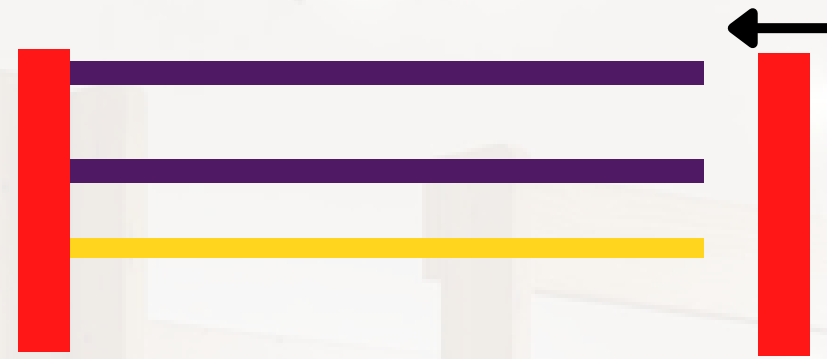

1).

ATTACH SIDE RAILS TO HEAD AND FEET: - Lay out the side rails and head and foot ends like this. Attach by all 4 corners (2 dowels and 1 bolt in each corner).

Side view

2).

Attach back safety rails and side rails to 1 end of the top bunk. Then attach the other end to the side rails and back safety rails. Place dowels in the top of the bottom bunk legs.

Side view

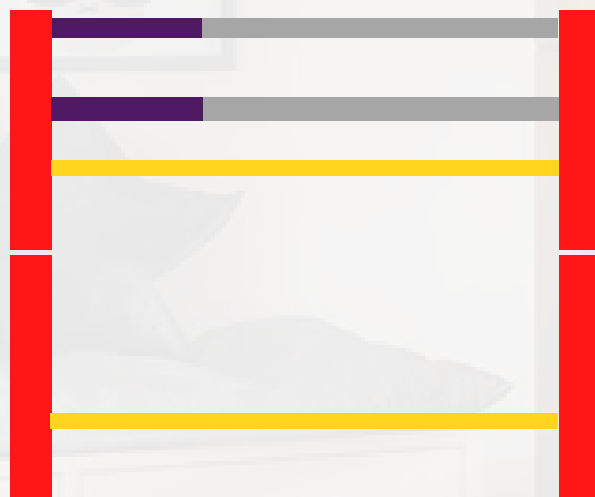

3).

*2 People required at least. Place top bunk on top of the bottom bunk.

Side view

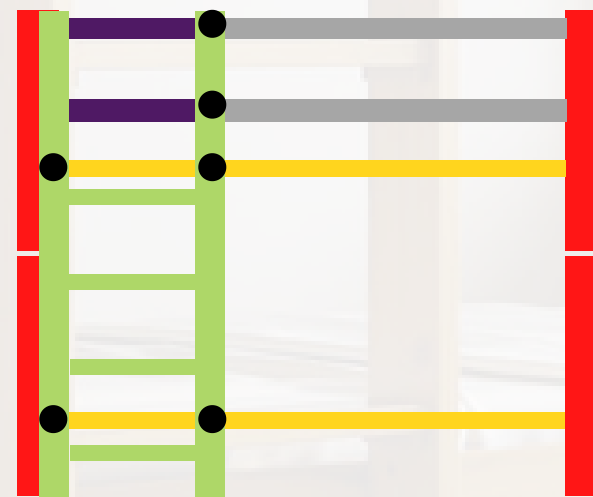

4).

ATTACH SHORT SAFETY RAILS TO TOP BUNK: - Bolt these into the pilot holes provided.

Side view

5).

ATTACH LADDER: - Screw the screws from the inside out into the ladder. You should screw x2 screws into each of the black circle areas on the image.

Top down view

6).

Drill the screws into the slats to the wooden ledge on the inside of the side rails. Install the top slats first then proceed to the the bottom bunk.
