Reinforced Beds

The Stylish Heavy Duty Solution

THE SUPPORTIVE, COMFORTABLE & DURABLE SOLUTION
SUITABLE FOR OVERWEIGHT / OBESE USERS
REINFORCED BEDS - CONTRACT BEDS & FURNITURE - 2015 COLLECTION

ABOUT US

We are a UK online retailer based on the Lincolnshire / Norfolk border operating under **Bedcare Ltd**, established since 2007. We are a family run business committed to providing excellent quality and affordable beds. We pride our service on being friendly and efficient whilst always focusing our attention towards exceeding customer satisfaction.

In 2011 we set up The Reinforced Bed Company where we took it upon ourselves to retail a bed that was not only appealing to the eye, but also suitable for overweight and obese individuals. Although many of our customers are not overweight, we've found that many just require a bed or mattress that is built to last.

In the UK & U.S, over half of the population is classified as overweight therefore for some people, buying a bed that is suitable and will last could be an issue. Some of our bed frames have been tested on weights of up to a tonne and being elegant to look at, they really are unique. Our mattresses contain heavy duty gauge springs (thicker than the average mattresses) giving a heavier person that extra support and a prolonged mattress life.

Aside from our heavy duty collection, we have also invested in our standard contract beds and furniture. Many of our beds and divans exceed the standards of care home, nursing and various contract regulations whilst always providing a safe and durable solution for challenging environments.

For more Information, please visit our website : www.reinforcedbeds.co.uk

OUR SERVICE

Reinforced Beds
The Stylish Heavy Duty Solution

With the growing demand of specialist mental health beds and the shortage of NHS supply (as publicised in the media over the past couple of years) we knew that there was a need to source a solution for those that were suffering. So in 2013, we also introduced specialist beds, mattresses and furniture meeting the requirements of those with challenging behaviours such as autism and psychiatric disabilities. These demands can be expensive for some customers, so we decided that it would be a great service to offer **VAT Reliefs / Disability Discount** for charities and for customers suffering from a disability.

In 2014, we sourced and teamed up with a fantastic new courier company called **Domestic Distribution**. This was an exciting leap for our company as we're now able to offer a tailored and bespoke delivery service including; Taking the item to the customer's selected room and also having our courier company Assemble the bed or item for the customer. We believe in an efficient and hassle free delivery service, meeting the requirements of every customer.

There are 3 main types of delivery service that we can offer to our UK customers. These are clearly stated on the product page via our website or on the price list enclosed.

- **Option 1 (1 - 2 Working Days)** - Curb Drop Service Only
- **Option 2 (3 - 5 Working Days)** - Tailored Delivery Service
- **Option 3 (Standard Delivery)** - Tailored Delivery Service

Please visit: www.reinforcedbeds.co.uk/pages/shipping-info for more information on our Delivery Service.

We offer a completely bespoke service, tailoring to individual needs whilst offering solutions for: **Care & Residential Homes, Hotels & Guest Houses, Landlords & Housing, Mental Health Environments** and **Student Accommodation**.

HEAVY DUTY WOODEN BEDS

Our Heavy Duty Wooden Beds are strong and robust.

Constructed using solid pine or oak, using solid slats and reinforcement bars ensuring that they can withstand the pressures of care homes, guest accommodation and student contract environments.

Being constructed for heavy duty use, our beds are suitable for heavy / overweight users. Each product has its own weight tolerance however some of our beds can withstand up to a combined weight of **50 Stone / 317 Kilograms.**

Many of our Heavy Duty Wooden Beds feature:

- The Strongest Scandinavian Solid Pine or
- Solid Natural Oak.
- Chunky Heavy Duty Solid Pine Side Rails.
- Reinforcement Centre Bar with Support Legs.
- Heavy Duty Fixings with Extra Thick / Wide Solid Slats.

We are able to offer a variety of footboard and headboard options with a selection of different finishes including natural and painted. These are clearly stated on the product page via our website or on the price list enclosed.

For more information regarding our Heavy Duty Wooden Beds, please visit : www.reinforcedbeds.co.uk

REINFORCED WROUGHT IRON BEDS

Our Wrought Iron beds are very strong and rigid.

Each bed is made from heavy gauge steel with a thick reinforcement centre bar. Many of our bed frames are supplied with strong beech sprung slats, where as the others are supplied with thick wooden slats. Please contact us for more details regarding each product.

Finishes Available

A range of different powder coated finishes on our standard wrought iron beds is also available. There is an additional fee to have a non standard finish.

We can add additional strengthening to our already super strong standard wrought iron beds by applying an **Extra Reinforced Base**. This would normally involve adding extra legs or doubling up on the side rails just to ensure the structure meets the requirements of the user.

For individuals weighing over **26 Stone / 165 Kilograms**, we suggest the extra reinforced base as it guarantees the peace of mind that the bed will last a healthy life span, becoming virtually indestructible.

For more information regarding our Reinforced Wrought Iron Beds, please visit : www.reinforcedbeds.co.uk

MENTAL HEALTH ROBUST BEDS

The Box Bed is part of our Robust contract bedroom furniture range. They feature 18mm Melamine faced MDF with internal reinforcing linings with a fully secured bottom panel to eliminate all potential concealment areas. This bed can also be fixed to the floor if required. Smooth rounded corners have been constructed to the headboards and footboards to provide safe support during challenging contract environments.

The Metal Skid Bed features a three sided frame, a welded mesh mattress platform and metal cross supports to give added durability and strength. Headboard sold separately.

Tested to BS 4875-7:2006 Level 5.

Available Finishes: Light Oak, French Walnut or Light Beech.

MENTAL HEALTH BASIC BED BASES

Our super robust basic metal bases feature a grade steel tube perimeter frame, a fully welded steel mesh panel and are under braced with angle iron supports making them extremely strong. With contract use in mind, our bases have safety corners at the foot-end and square corners at the head-end. Many feature threaded holes for headboard fitments if required and removable steel legs for easy transportation.

These beds are ideal for challenging behaviours such as autism and psychiatric disabilities. They are available in a variety of sizes with some beds supporting up to a combined weight of **40 Stone / 254 Kg**, which also makes them ideal for many overweight and obese individuals.

HEAVY DUTY DIVAN BED BASES

The Heavy Duty Divan Base is a very popular item within our collection. The base is extremely strong and robust, featuring extra solid MDF top and sides designed to take the stress and strain of every day knocks and bumps. It is ideal for people with autism and other challenging behaviours. For extra reinforcement, we can supply our heavy duty divan base with a solid MDF bottom. A variety of 2 drawer and 4 drawer options can be applied to our bases providing tidy under-bed storage. We can also supply our bases with a waterproof PVC cover. As standard the base is supplied with castors. Our Heavy Duty Divan Base can support combined weights of up to **50 Stone / 317 Kilograms**.

Finishes Available

The base can be upholstered in Ivory, Beige or Black.

Contract Heavy Duty Divan Bases

If you require compliance with care home and contract fire safety, we can supply our divan base with fabrics that meet **Source 5 / Crib 5 Regulations**. Please contact us for more information.

HEAVY DUTY DIVAN BASE
RB-CON-100

STANDARD CONTRACT DIVAN BED BASES

Our Standard Contract Divan Base is stronger and more robust than your average base on today's market. They are supplied with extra slats, soldiers and a pegboard top for ultimate support and stability. The standard base is 14" deep and is supplied with castors or there is an option for legs to be fitted.

A variety of 2 drawer and 4 drawer options can be applied to our bases providing tidy under-bed storage. Our Standard Contract Divan Base can support combined weights of up to **40 Stone / 254 Kilograms**.

Finishes Available

The base is upholstered in Ivory only.

As standard, our contract divan base meets the **Source 5 / Crib 5 Fire Safety Regulations** making it an ideal solution for contract environments such as care homes, hotels, student accommodation and guest houses.

STD DIVAN BASE DEEP 2 DRAWERS
RB-CON-117

STANDARD CONTRACT DIVAN BEDS

Our Standard Divan Beds are suitable for all contract environments. They conform to **Crib 5 Contract Standards** and **Strict BS7177 Medium Hazard Safety Regulations**, ensuring that the bed is resistant to a naked match flame and cigarette smoulder. Please note that the Headboards are not included with our standard contract divans.

Packed with layers of luxurious fillings for added comfort and finished with either a durable stitchbond cover or a high quality Belgian Damask cover. Both the Kenilworth and Chester Divans feature a robust 12.5 gauge open coil bonnell spring system with a 8 gauge rod edge wire ensuring support right to the edge of the mattress.

HARLEY DEMENTIA CONTRACT BEDROOM FURNITURE

The Harley collection has been specifically designed to support and meet the needs of people living with dementia. It has been developed to try to help promote a safe and comfortable surrounding. The range incorporates key design points to help minimise confusion and anxiety, helping residents with their daily routine.

- Glued dowelled & screwed
- 170° degree hinges
- Hanging rails & Optional locks
- Soft rounded corners
- Anti-microbial finishing lacquers
- **Tested to BS 4875 Part 7 Level 4**
- **Tested to BS 4875 Part 8**
- UK manufactured
- Optional White Drawer / Door Fronts

Finishes Available

Drawer fronts have soft rounded corners and profiled edges with the option of large scoop detailed handles.

Developed with anti-microbial finishing lacquers making this range very hygienic, as they are easy to wipe and keep clean.

Mirrors have the option of being folded closed, as reflections can cause distress and upset if your residents do not recognise themselves.

Unique open sections allow the clothes to be seen, touched and accessed very easily. There is no glass or polycarbonate door panels, which may cause distress due to reflections and access confusion.

The tops of all units have soft rounded corners and smooth profiled edges. Low level units are fitted with a vertical rail at the back to prevent anything falling behind the unit and being lost.

Memory boxes provide a history of the individual and are a great way to promote a person-centred approach, providing carers and visitors with valuable opportunities for interaction.

EXTREME CONTRACT TABLES

Introducing our extreme tables for mental health and challenging behaviours. The 4 legged extreme tables feature reinforced rails with rounded edges to avoid injury risk and reinforced joints to ensure stability and strength. They feature square legs and HPL (High Pressure Laminate) tops with 18mm MDF Core, suited for extreme conditions.

The extreme box tables are fully boarded against impact damage and can also be weighted if required.

NHS HOSPITAL BEDSIDE CABINETS

Our exclusive range of NHS bedside cabinets are manufactured in 18mm MFC with MDF tops, drawer and door fronts. The tops feature polished, rounded edges for longevity (no edge banding to peel off) and to avoid patient injury (no sharp edges). All cabinets come with cut away handles as standard to avoid impact injury.

Manufactured in MDF with edges polished to severe contract standard under **BS 6250** to ensure a super tough finish. Cut away handles remove the need for conventional protruding handles.

A towel rail and a bowl holder can be provided as an optional extra. Lockers come with two keys as standard. We can supply master key sets for up to 20 lockers, 20-50 lockers and 50+ lockers.

Drawers constructed with metabox sides running on contract grade metal runners. The height of the metabox sides is 120mm to produce a generous drawer depth.

Side doors are supplied with two hinges to avoid the door being ripped off the carcass, if accidentally leaned on while open.

Cabinets are supplied with a strong flap mechanism and sunk hinges to give easy access to the flap compartment.

CONTRACT DINING & RECEPTION CHAIRS

We have a wide range of dining, side and bistro chairs to offer at a variety of price points. The frames are manufactured from Ash, Birch or Beech that is air or kiln dried to ensure excellent stability, before being machined. Upholstered frames are glued, screwed and doweled while show wood frames utilise comb or mortice and tenon joints for strength. All consist of integral front and rear legs to offer adequate strength. Show wood on the furniture are hand stained and sprayed using between 2 – 4 coats of lacquer.

Upholstery - Juno, Libra, Linetta or Paint Pot fabrics. Contact us for more information or visit: www.reinforcedbeds.co.uk

NHS HOSPITAL PATIENT CHAIRS

Our NHS patient chairs offer a range of features to make it the ideal choice for a medical or nursing environment. They are polished using the medicote system of anti-bacterial / fungal / microbial lacquer. **Tested to BS EN 15373:2007** for extreme contract use. Juno, Libra, Linetta or Paint Pot fabrics available. Please visit www.reinforcedbeds.co.uk for more information.

The seat cushion on all Cambridge chairs are removable for ergonomic aid. A seat depth of either 490mm or 525mm is available. This reversibility prolongs seat cushion life by reducing the wear.

Curved, round and ergonomic arm design for total patient comfort. A rounded top surface with protruding easy grip arms ensure it's as easy as possible for the patient to raise or lower themselves.

A four position rigid drop arm can be fitted to all Cambridge chairs. The lowest position sits below the height of the seat cushion to allow easy patient transfer.

Chair height indication stickers are provided: Red - 510mm | Yellow - 460mm | Green - 410mm. The sticker will also show the chair's weight restriction. Housekeeping wheels can also be fitted onto the chairs.

Risk pressure relief cushions are available providing malleable pressure relief and sufficient firmness to avoid the foam bottoming out. The reflexion layer can also provide relief to the back of patients legs.

Height adjusters can be fitted to all Cambridge chairs. They are easy to operate, varying the height by 100mm in 5 steps. As standard the range is supplied at 410-510mm. Please contact us if you require anything different.
