

DETERMINING YOUR RING SIZE

TO ENSURE ACCURATE MEASUREMENTS FOLLOW THE PRINT DIRECTIONS BELOW

Make sure the print setting is to “Actual Size” and that there is no page scaling.

Test by measuring the 30mm bar provided on the right. It must be exactly 30mm long.

Circles in American and Canadian ring size and diameters (mm)

MEASURE WITH ANOTHER RING

1. Select a ring that fits the intended finger you'd like to measure. Ensure it properly fits to get the best accurate measurement.
2. Match the inside edge of your ring to the circle size chart. This is inside diameter of the ring. Do not measure the outside edge to fit the circle size.
3. If your ring is between two sizes, opt for the larger size.

MEASURE YOUR FINGER

1. Disclaimer: Using string or paper can cause inaccurate measurements. Follow the steps below for only a rough estimate of your ring size.
2. Finger sizes change throughout the day due to various things such as temperature, and use.
3. Measure your finger at the end of the day. To ensure the most accurate reading, measure a couple times throughout different times of the day.
4. Measure the base of the intended finger. When wrapping the string or paper around the finger, make sure it is slightly snug.
5. Use a ruler to measure the length. This is the circumference of the ring. Match this length with size chart.

INTERNATIONAL RING SIZE CHART

Circumference (mm)	Diameter (mm)	United States & Canada	Europe	UK & Australia	China	Singapore & Japan	Hong Kong	Switzerland
41.5	13.2	2	44	F 1/2	6	4	6	4
42.8	13.6	2 1/2	45	F 1/2	6	5	6	4
44.1	14.1	3	44	F 1/2	6	4	6	4
