

Extremely Durable Premium Porcelain Surface

Porcelain enamel, also called vitreous enamel is a material made by fusing powdered glass to a metal substrate under very high temperatures (around 800 degrees Celsius). The powder melts, flows, then hardens to a smooth rock hard and incredibly durable whiteboard writing surface.

Excellent hard wearing magnetic surface for heavy use applications. For use with dry wipe whiteboard pens. Can be mounted landscape or portrait. Aluminium frame, concealed corner mounting supplied with pen tray and fixings. 4 free coloured magnets with every whiteboard.

FEATURES

- Porcelain surface (or vitreous enamel) whiteboards are ideal for heavy use such as schools, classrooms, conference centres and medical facilities
- Porcelain is the preferred choice for educators around the world
- Rock hard whiteboard writing surface is guaranteed for 25 years
- Scratch and stain resistant
- We stock 12 different sizes to suit your requirements

This board is manufactured using environmentally friendly materials. The backing is manufactured from agricultural 'biomass'. During the process, the natural stems and branches are ground, steamed, then pressed into fibres without any chemical or oil based additives used in the process. Bioboard is 100% biodegradable and this board can be fully recycled.
