

PROMIC UR-155

WIRELESS MICROPHONE SYSTEM

Affordable Wireless Microphone Package with Amazing Sound Quality and Reliable Performance

The Promic UR-155 wireless handheld microphone system offers reliable performance for an incredibly low price. This complete wireless handheld microphone package is perfect for use in small to midsize venues including school halls, clubs, churches and more. In addition to a super-reliable true diversity receiver, the UR-155 includes a sturdy wireless handheld dynamic microphone that's great for both vocals and speech.

As it's easy to set up and to use, you don't have to be a wireless audio guru to get the most out of the UR-155 wireless system. Simply plug into your existing PA System (*mixer or amplifier*), tune to a suitable wireless channel and enjoy wireless freedom. Operating in the 610-640 MHz ACMA compliant wireless range, you will be sure that this system is fully compliant with recent changes to regulation.
