Never-Furl™ Assembly

Patio Flagpoles can also be fitted with the popular NeverFurl™ rotating system. The NeverFurl™ system replaces the truck assembly, cleat, halyard and flag snaps, providing a clean, quiet, and tangle-free flagpole system. The provided 3" Diameter Ball screws into a fitted plug that fits into the top of the flagpole to retain a finished flagpole appearance.

Never-Furl™ Assembly

The Never-Furl™ Assembly can be substituted in lieu of the truck, halyard, cleat and flagnaps on any PATIO flagpole at **NO CHARGE**.
