With KDF® 55/85

More chlorine, chloramines and fluoride is absorbed through the skin during the average shower than by drinking two quarts of water

About KDF®55/85 Filtration

The Aquasmart Shower Purifier uses the newest, most advanced filter medium available. Kinetic Degradation Fluxion (KDF) is a high purity copper-zinc formulation that eliminates contaminants from water by utilizing an electrochemical oxidation-reduction reaction.

A white AquaSmart Shower Purifier #390 is shown attached to a shower arm. The device has a cylindrical body with a showerhead at the bottom. Water is spraying from the showerhead. The background is black.

AquaSmart®

Shower Purifier

The Natural Shower

Quick and Easy To Install

- 1. Simply unscrew your own showerhead or hose from the shower arm.**
- 2. Apply Teflon®/plumber's tape on exposed threads on shower arm and bottom of Aquasmart shower filter.**
- 3. Attach the Aquasmart Shower Purifier on the shower arm.**
- 4. Reattach your own showerhead/hose on the bottom of the Aquasmart shower filter.**
- 5. Run the water for 5 minutes and you are ready to enjoy your shower.**

Replacement Unit

Based on water quality, amount of showers taken per day and duration of showers the shower filter will provide for an average contaminants reduction of 98% for 10,000 gallons at a flow rate of 2.5 g.p.m.

Specifications

Weight.....400 grams
Maximum water pressure.....100 PSI
Minimum water pressure.....40 PSI
Maximum temperature.....104 F
