REMOVES

Chlorine, Chloramines, Fluoride, Heavy Metals and Other Contaminants Leaving Your Water Pure and Refreshing

About KDF®55/85 Filtration

The Aquasmart® Shower Purifier uses the newest, most advanced filter medium available. Kinetic Degradation Fluxion (KDF) is a high purity copper-zinc formulation that eliminates contaminants from water by utilizing an electrochemical oxidation-reduction reaction.

The Aquasmart® Shower Purifier Is A Healthy Choice

In most communities our water supply requires chlorination to kill bacteria yet high levels of chloramines, fluoride and heavy metals are not healthy for human consumption. Did you know that during the average shower, the body absorbs more chloramines than is found in 2 quarts of drinking water. Imagine what that can do to your skin, hair, eyes and lungs.

The Aquasmart® Shower Purifier eliminates chlorine, chloramines, most heavy metals, fluoride, hydrogen sulphide, bacteria and THM and controls algae in your drinking water.

Benefits

- Leaves skin soft and silky hair.
- Enhances personal care products.
- Purifies shower water and removes chlorine, chloramines, fluoride, heavy metals and other contaminants.
- Controls mildew, mold and algae in your tub and shower stall and eliminates odors.
- Approximate life span is 8 12 months.
- Installs in minutes on all showerheads and personal shower sets.
- One year limited warranty.

Replacement Unit

Based on water quality, amount of showers taken per day and duration of showers the shower filter will provide for an average contaminants reduction of 98% for 10,000 gallons at a flow rate of 2.5 g.p.m.

Specifications

Weight......400 grams
Maximum water pressure.....100 PSI
Minimum water pressure.....40 PSI
Maximum temperature......104 F
