Aquasmart Technologies' philosophy is to inspire and promote healthy life style, to supply high quality products at the most affordable 'water purification' system prices, world wide.

Fluoride removal from your drinking water and your shower.

It's no secret that much of our water supply comes from heavily polluted waters. These sources require chlorination to kill bacteria. High chlorine levels are not healthy for human consumption. Many cities across North America, use a form of disinfectant called Chloramines; a combination of chlorine and ammonia. Others use one or a combination of: FLUORIDE; CHLORINE; CHLORAMINES. These by-product substances are harmful to our health and can be grouped under four categories:

1. Physical: materials that do not dissolve in water and make water appear "dirty".
2. Chemical: substances dissolved in water from both natural and man-made processes.
3. Biological: viruses, bacteria, algae, and other small organisms.
4. Acidic bodies versus alkaline and pH.

PURE, FLUORIDE FREE, ALKALINE WATER FOR ONLY PENNIES PER DAY!!!!
Revive, Restore, Energize, Detoxify, Alkalize, Hydrate.
Balance your pH for a Healthier Body.
