Kanguru DVD Duplicators

These high-quality, 24x DVD / CD Duplicators are designed to streamline data duplication and backup activities. As stand-alone units, they do not require a computer to use. The 24x burn speeds make them among the fastest DVD duplicators on the market today, and the user-friendly LCD interface and intuitive menu enables you to copy data to multiple DVDs quickly and easily.

Kanguru DVD Duplicators are compatible with CD+G, VCD, ISRC and more, allowing you to have nearly every major format at your disposal. As an added benefit the Kanguru DVD Duplicator can also be connected to any PC or Mac through a USB port for custom burning.

Kanguru stand-alone DVD Duplicator's come with or without an Internal Hard Drive, depending on the make and model. With the built-in hard drive models, you can store commonly duplicated jobs internally for faster production time. You can also copy disc images from a PC or Mac to the duplicator's hard drive through the USB connection.
