

Kanguru Defender LifePlanner™

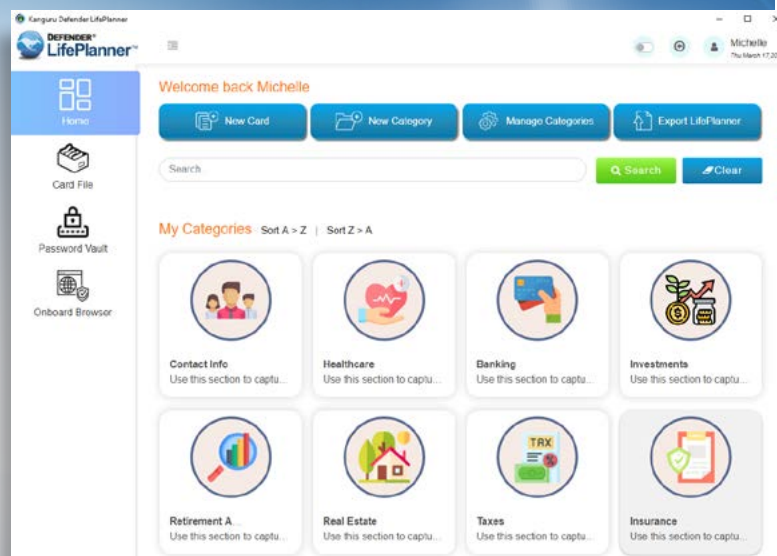

Fingerprint Access, Encrypted Personal Life Organizer

Part Number: KLPBE30-xxG

The Defender LifePlanner is your personal, Encrypted Life Organizer! Organize everything from your personal banking, passwords, investments, doctor and pharmacist information, medications, retirement, estate planning and so much more, all in this military-grade AES 256-Bit hardware encrypted flash drive with fingerprint access.

Protect and organize all of your personal data, passwords, usernames, account numbers, contacts, wills, trusts - everything in one convenient location, that you can access anytime - even away from the internet.

Perhaps you cringe at the thought of having your personal information stored on some unknown online server in cyberspace somewhere, or you have sticky notes and files all over your computer, home, or office with exposed passwords and account numbers to remember. If you are looking for a single, secure, convenient location to store all of your personal information, then the Defender LifePlanner is ideal for you!

- Anything You Want!

PEACE OF MIND

Once you initialize the security settings and set up your fingerprint, all you need to do is plug in your Defender secure flash drive into any USB port on a computer, tap the back, and you will have full access to enter and review all of your personal information. The Defender LifePlanner organizes all of your data, and secures it under military-grade, AES 256-Bit hardware encryption. You can be confident that your data is safe. Only you have access to this data, and it remains local - in the palm of your hand; not on some unknown server in cyberspace.

Kanguru Defender LifePlanner™

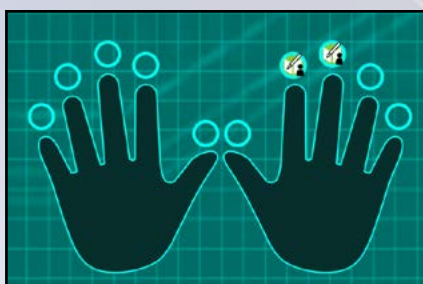

Fingerprint Access, Encrypted Personal Life Organizer

You work hard to manage your life, take good care of your family, your loved ones, take good care of yourself, save and build wealth, and plan for you and your family's future. Your busy life is a result of good vision, hard work, motivation and an understanding of what's important in life. Along with those responsibilities comes a lot of information to juggle. Online account access, account numbers, addresses, contacts and account details are just some of the information directly related to maintaining a busy lifestyle. The Defender LifePlanner will help you organize and secure your information so that you can achieve your goals.

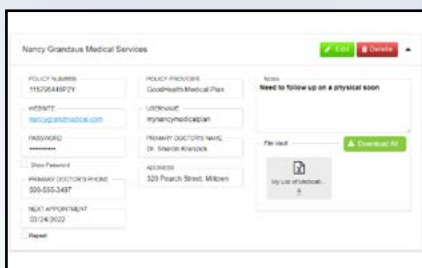

Easily access all of your encrypted data with just a tap of your finger.

It's easy to assign your fingerprint. Once you initialize the security settings, you can immediately begin using your drive.

As you enter your information, the LifePlanner conveniently organizes your data into categories in an easy-to-read format.

See these helpful **"Get Started" videos** to learn how to set-up, and use your Defender LifePlanner.
