

KanguruClone™ 11-HD SATA Hard Drive Duplicator

Stand-Alone Kanguru Hard Drive Duplicator

The new, high performance KanguruClone 11HD Tower Hard Drive Duplicator is a high speed, stand-alone SATA hard drive duplicator that can clone up to 11 hard drives or SSDs simultaneously. With ultra-fast copy speeds of up to 6GB/min, the KanguruClone is the fastest and most affordable cloning system available.

A feature rich LCD makes the duplication process a breeze! Just insert your master hard drive and up to 11 target hard drives, and you will be duplicating within minutes. The duplicator has many advanced features for the IT professional, yet the controls are simple enough that even a novice can begin cloning hard drives within minutes of taking it out of the box.

With multiple copy modes including Brief, Disk, Resize and secure disk wiping capabilities, the KanguruClone 11HD Tower Duplicator is great for IT work, backing up hard drives, data wiping, large PC deployments, drive testing and more. You can even copy a current small capacity drive to a larger capacity drive with all original content intact!

FEATURES/BENEFITS

- Multiple Copy Modes: Brief, Disk, Resize
- Fast transfer rates – up to 6GB/min
- Supports all major file systems
- Supports 3.5" SATA HDDs natively
- Supports 2.5" SATA HDDs up to 9.5mm thickness with adapters
- Supports SATA SSDs with adapters
- Secure Disk Wipe feature meets DOD 5220-22M guidelines
- Tool-free rack design
- Multiple UDMA modes supported
- System counter
- Size and brand independent
- Standalone operation, no computer needed
- TAA Compliant

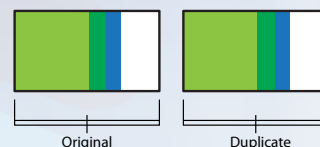

Model Number:
KCLONE-11HD-TWR

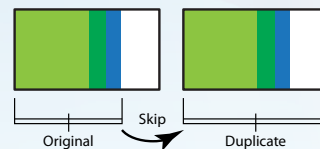

MULTIPLE COPY MODES

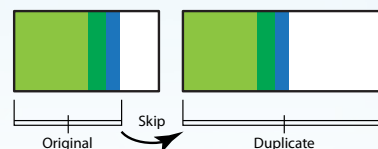

FULL MODE copies drives sector by sector from the Source to the Target(s), and supports all major OS formats (DOS/Windows/Mac/Linux).

BRIEF MODE copies only the sectors that contain data (including information hidden in sub channels) and skips any blank sectors on drives with supported file systems.

RESIZE MODE is used to copy between Source and Target drives of different capacities. The Resize mode allows for copying from a smaller capacity Source to larger capacity Target drives.

Great for System Rollouts

Quickly clone one master drive to multiple target drives.

Hard Drive Upgrades

Copy smaller drives onto larger replacement drives.

Secure Data Wipe

Completely remove all data from drives before disposal or re-use.
