

# KRMC Cloud Pro Edition (KRMC Cloud Pro™)

## Upgrade for KRMC Cloud Accounts - Multiple Administrators

**KRMC Cloud Pro™** is a robust upgrade\* for existing KRMC Cloud accounts with some great convenient features. Assign an unlimited number of sub-administrators with specific rights and privileges for each one. Remotely manage all Kanguru Defender® secure USB drives from anywhere in the world, and improve auditing by enabling specific actions and events to be logged within the same cloud account. KRMC Cloud Edition stores no data, which is maintained on the encrypted devices. Administrators can track, manage, delete lost or stolen drives, generate reports and much more through the highly-secure cloud interface.

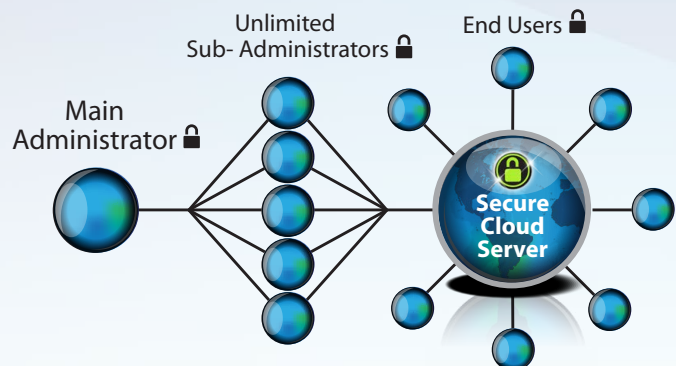

### Features of KRMC Cloud Pro:

- **Assign Unlimited Administrators and Allocate Specific Rights & Privileges to Each of Them**
- **Improve Auditing Features**
- **Log Administrator-Specific Actions**
- **Simple and Easy to Use**
- **Remotely Disable or Delete Lost or Stolen Drives**
- **Manage Password Strength, Length, and Set Limits on Invalid Login Attempts**
- **Restrict Drive Usage Based on IP, MAC Addresses, and Domain(s)**
- **Set Master Password**
- **Generate Reports**

Model Number:  
KRMC-CLOUD PRO

### KRMC Cloud Pro Edition:

KRMC Cloud Pro is an upgrade\* to existing Cloud-Based Kanguru Remote Management Console account(s). Assign unlimited administrators within the same Cloud account and allocate specific rights and privileges for each administrator.

KRMC Cloud is the subscription-based alternative to our KRMC-Enterprise solution, and is managed on Kanguru's own Enterprise-level, secure cloud-hosting platform.

\* Requires purchase of (1) KRMC Cloud license for each device managed (sold separately).

**See KRMC Enterprise Edition if you would like to learn more about Remote Management on your own secure, self-hosted servers.**
