Kanguru USB Duplicators

These high-quality USB Duplicators are designed to streamline data duplication and backup activities for USB storage devices. As stand-alone units, they do not require a computer to use. The user friendly LCD interface and intuitive menu enables you to copy data to multiple USB devices quickly and easily. Simply plug your USB devices into the duplicator's USB ports and choose your duplication method. It's that easy!

The Kanguru USB Duplicator is perfect for sales and marketing preparation, IT work, backups, PC rollouts and more. It has multiple functions which allow you to copy, compare, verify and erase data to your USB devices. It also provides numerous setup and advanced setup options for the experienced user.

COPY FUNCTIONS INCLUDE:

- **FULL MODE – Complete sector-by-sector duplication. Supports any file system.**

- **BRIEF MODE – Only copies sectors that contain data. Supports NTFS, FAT, HFS+, HFSX, exFAT and EXT2/3/4**
