Options

I offer with engraved, debossed or hot foiled coasters.

I can paint them to specific colour if required, for a truly unique experience.

LEAD TIME

The lead time varies as to which option you chose.

Engraved: I can turn these around in 2-3 days for smaller orders.

Debossed: If you are looking for 50 coasters or under I can make these with in 2-3 days.

If you are wanting over 50 debossed or hot foiled, this requires me to outsource a die block which will add a week to production.

DELIVERY

I can ship directly to you or your clients nationally and internationally.

QUANTITY

No minimum order. The die block for the debossed and hot foil is a one off fee and will vary depending on your logo.

Laser Engraved

Blind Debossed

Gold Hot Foil

Silver Hot Foil

Leathers

As well as the option to paint coasters to a specific colour, I can also outsource a selection of Italian leathers that are utterly beautiful, one is more of a constant colour, and one is more of a stunning mottled look (as per the example in burgundy).

CLOAKROOM TAGS

I also made some matching cloakroom tags with gold numbers.

Wooden Coasters

If leather isn't for you I can also engrave wooden coasters. I have a choice of woods so get in touch to discuss options.

Laser Engraved

Brands I am proud to have worked with.
