

PRO GROW

SMART PLANT LIGHTING
FULL SPECTRUM UFO LED

THANK
YOU

Thank you for choosing PROGROW UFO LED series, which stand for best and most complete spectrum grow lights in the hydroponic industry ever seen.. This revolutionary series of LED grow lights will produce the biggest and best yields, while consuming approximately half the Electricity of its HID counterpart and producing virtually no heat Your Kind LED Grow Light will cultivate record breaking yields, both in quantity and quality, while running quieter, cooler.

Notes / Remarques:

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available. If electrical appliances are ground water and get into the food chain, damaging your health and well-being.
