Dear Partner,

We at Feeding India by Zomato would like to sincerely thank **'The Plated Project (a brand owned and operated by MOONREEF INNOVATIONS LLP)'** for your contribution of Rs. 90,000 towards the Daily Feeding Program through June 2021. These funds have helped us distribute 9,000 meals across 150 beneficiaries for 41 days in Bangalore.

You have our sincerest gratitude for your dedicated effort in helping us spread awareness about our initiative and look forward to partnering with them in the future.

Feeding India by Zomato is a not-for-profit that designs interventions to solve hunger within the underserved communities of our country. Started in 2014, Feeding India is present across 185+ Indian cities and has served 140+ million meals till date.

Under the 'Daily Feeding Program', we serve 1,00,000+ meals regularly to beneficiaries in marginalised communities to reduce their financial burden in the short term, and empower them to become hunger-free in the long term. We work with over 800+ NGOs and 20+ kitchen partners to serve communities including children, abandoned women, differently-abled, transgenders, sex workers etc.

Over the years, we have also gone beyond our call of duty and been the first to act to serve our country during national emergencies. Our endeavour with this program is to reduce the response time and offer immediate support to victims affected by disasters like floods, cyclones, earthquakes, epidemics, and other emergency situations across the country.

For more information on our initiatives you can visit our website www.feedingindia.org/donate.

Thank you.

Regards,

Chaitanya Mathur
