

Letter of Gratitude

19th August 2022

To The Plated Project

On behalf of the Milaan Foundation, we would like to extend our heartfelt gratitude to '**The Plated Project**' (registered as MOONREEF INNOVATIONS LLP) for their generous contribution to Swarachna School and Girls' Hostel.

With your kind support, we've been able to achieve better learning outcomes and increased participation by providing our students with adequate, healthy and nutritious meals. Your valuable contribution for the month of May will support **7,500 meals**.

We aim to provide nutritional support to the children, especially girls in our hostel who belong to socially and economically backward communities, ensuring their holistic growth and development.

The school offers a different menu every day with adequate, healthy, and tasty meals enjoyed by the children! We truly appreciate your concern and commitment to our cause and strive to eliminate disparities in schooling with a focus on equitable and quality secondary education, serving many first-generation learners in the Kaintain village of block Sidhauri in Sitapur, Uttar Pradesh.

People like you truly make a difference in our community and we are incredibly grateful for that!

Thank you!

With gratitude,

Rati Misra
Executive Director
Milaan Foundation
