Click·Fit

CLICK-FIT BATH WASTE

Easy to Install: Save money.

HALF KITS

- Patent-pending lock-in-place faceplate prevents loosening of overflow and retainer nut which could lead to serious overflow problems
- Unique overflow test cap prevents installation of faceplate without removal of testing device which could cause water damage
- Click-Fit trim is compatible with most major manufactures kits
- Click-Fit re-fit kits available for quick and easy trim outs in special finish
- Assembled in the USA with domestic and foreign components

ASSEMBLY INSTRUCTIONS

CLICK-FIT® BATHWASTE INSTALLATION

Follow the installation instructions outlined below to install Click-Fit® bathwaste.

STEP 1

Install the thick washer over the threads of the Click-Fit® overflow head.

STEP 2

Screw the lock nut on the threads of the Click-Fit® overflow head to secure to the tub face.

STEP 3

When pressure testing the system, screw on the red test cap to seal the Click-Fit® overflow head.

STEP 4

Remove the red test cap and insert the Click-Fit® faceplate into the overflow head with the slots and turn until it locks into position.

STEP 5

Once Click-Fit® faceplate is in position, push forward until the faceplate is touching the tub face.
