

LITTLE GRIPPER

TOOL CONNECTOR -  ROTATING TOOL

CODE : H03040 - 43 | H03040P - 43P

If you need a tool tethering solution that's quick to apply and has zero impact on tool functionality, then you need a Little Gripper.

Moulded from a specialised TPU material, the Little Gripper provides an instant fully load rated tool connection point without the need for adhesives.

Compatible with round and polygonal shaped shafts, the 4 sizes cover a huge range of tools including screwdrivers, chisels, punches, pliers, pens, pry bars and more.

LITTLE GRIPPER
 TOOL CONNECTOR -  ROTATING TOOL
 CODE : H03040 - 43 | H03040P - 43P

KEY FEATURES

Flexible collar allows for rapid installation

Available in a range of sizes

Fits a wide range of screw drivers and other tools (ie chisels, punches, pliers, pens, pencils, pry bars and more)

Combine with GrippLink for a floating connection point with 360° mobility

Moulded from custom German engineered TPU compounds

UV protected for long-lasting outdoor use

No additional adhesives or tools required for application
