Hello! The Baker Menu is one of our favourites, we hope you enjoy it as much as we do.

Let’s get it ready to use!

We make things that go the distance and stand the test of time, so we thought we’d better help you out with installing your new Baker Menu, and get the job done right.

You or your handyman are looking at taking about 30-45mins once you’ve got the tools ready, so get a good playlist going, pour yourselves both a cuppa and enjoy the quick and easy process.

- MASALA CHAI 4
- TEA 3
  HAVE A NICE
What you'll find in the box.

The Baker Menu comes with the all of basics for what you need to make the installation an easy process. We’ve included the bits and pieces made for mounting onto a studded drywall.

Note - you may need just a few extra handy tools if you’re installing onto a concrete, gib board/drywall wall or tiles, have a look at what we’ve listed on the following page.

What could be handy.

Here’s a small list of the things that will be beneficial to the installation process. You should find that most handymen / handywomen will already have these extras in their tool kits.

Note - The screw size provided is 20mm/0.79in x 3mm/0.12in

Step by step installation guide.

STEP 1. CONFIGURATION

Whether you’re displaying a food menu, coffee list, or your favourite quotes, the Baker Menu aims to compliment that. You can lay the rails side-by-side or vertically - whatever works best for you and your space!
HERE'S HOW IT COULD LOOK.

<table>
<thead>
<tr>
<th>DAILY SPECIALS</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOMATO SOUP</td>
</tr>
<tr>
<td>SNAPPER</td>
</tr>
<tr>
<td>FIG &amp; BLUE CHEESE SALAD</td>
</tr>
<tr>
<td>GRATIN</td>
</tr>
</tbody>
</table>
STEP 2.
PLACEMENT

Select a wall-space to install the Baker Menu. Insert the first screw in the left end hole in what will be your bottom rail.
STEP 3.
LEVEL + POSITION

Using a level, position the rail so it is perfectly horizontal. Fasten the second, third and forth screws and ensure the rail is securely fixed to the wall.
STEP 4. SPACING + FIXING

Place the spacer on the first rail. Using this as a guide, position and fix the second railing onto the wall. Continue this method for the remaining rails. Make sure the rails are nice and tight on the spacer to ensure that they stay parallel.
Easy as that! The rails are now fixed in place and ready for you to arrange the text, simply place the magnet letters onto the rails and you’re good to go.
Here are a few photos of the Letter Display in use to give you some inspiration for installing in your space.
