

Notice for Use

Thank you for choosing Eleaf products! Please read this manual carefully before use so as to use correctly. If you require additional information or have questions about the product or its use, please consult your local agents, or visit our website at www.eleafworld.com.

Product Introduction

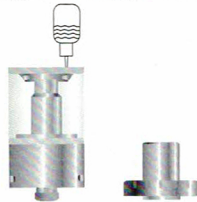

iJust S, a new starter kit, has a larger diameter of 24.5mm and a higher battery capacity of 3000mAh compared to previous iJust series kits. All parts of the iJust S atomizer can be detached and reassembled, bringing much more convenience in cleaning and maintenance. The e-liquid can be refilled by removing the top cap only with ease. When used with new ECL 0.18ohm Head, the iJust S will bring you a different vaping experience with nice flavor.

How to Use?

1 iJust S English

Assembling:

1. First drip a few drops of e-liquid directly into the coil to make it fully saturated and screw the atomizer head onto the atomizer base tightly.
2. Then screw the atomizer tube onto the atomizer base.
3. Next screw off the top cap; slowly fill e-liquid into the atomizer along the glass tube and screw the top cap with mouthpiece back onto the atomizer tube tightly after filling. (Note: please don't overfill and don't fill e-liquid into the air pipe; please take several puffs without activating the atomizer and leave the atomizer sit for several minutes before first use.)
