## iJust 2/iJust 2 Mini Kit User Manual

### Notice for Use

Thank you for choosing Eleaf products! Please read this manual carefully before use so as to use correctly. If you require additional information or have questions about the product or its use, please consult your local agents, or visit our website at www.eleafworld.com.

### Product Introduction

The iJust 2 kit, a starter e-cigarette kit by Eleaf, features the 5.5ml huge e-liquid capacity and 2600mAh battery capacity despite its simple appearance and light weight. The new iJust 2 Mini is a pocket-sized version of iJust 2 kit, having 2ml e-liquid capacity and 1100mAh battery capacity. Compact but yet efficient in every way, the iJust 2 Mini retains the unique atomizer base for better heat dissipation and side USB port design for convenient charging. When working with EC coils, the iJust 2/iJust 2 Mini will bring you a great joy in vaping.

### Quick Start

a) How to assemble:  
Mount EC head onto the atomizer base and then put together base, tube and mouthpiece. Finally assemble iJust 2/iJust 2 Mini battery and iJust 2/iJust 2 Mini atomizer together.

b) How to fill e-liquid:  
1. First unscrew the base off the atomizer;  
2. Then slowly refill the e-liquid into the atomizer along the tube;  
3. Finally screw the base onto the atomizer again.

Note:  
1. Please don't add e-liquid into the air pipe and don't overfill.  
2. Please first drip a few drops of e-liquid directly into the wick of the coil to make it fully saturated before first use.

### c) How to use:

**Power on/off:** Press the button five times in quick succession within two seconds, the white indicator light will flash five times to show iJust 2/iJust 2 Mini is ready for use. In the same way, iJust 2/iJust 2 Mini can also be turned off.

**Vaping:** Long press the button to take a puff.  
**Charging:** Charge iJust 2/iJust 2 Mini by connecting it with wall adapter or computer via USB cable. The indicator light will turn red when iJust 2/iJust 2 Mini battery is charging and the light will go out when fully charged. It will take 3 hours for iJust 2 and 2 hours for iJust 2 Mini to get a full charge via 1A wall adapter.

### Properties

**Atomizer Protection:** When vaping time exceeds ten seconds, iJust 2/iJust 2 Mini battery shuts off automatically with the white indicator light flashing ten times.

**Short-circuit Protection:** When the resistance is less than 0.15ohm, short-circuit occurs with the white indicator light flashing three times.

**No Atomizer Protection:** The white button light will flash slowly when the button is pressed down without atomizer connected.

**Low-voltage Protection:** When the voltage of battery is below 3.3V, the white indicator light will flash 40 times. At the same time, press the button cannot power on.

**Unlock the Low-voltage Protection:** Charge the iJust 2/iJust 2 Mini battery till the voltage is above 3.7V. Then the low-voltage protection will be unlocked automatically.

**Battery Level Indication Function:** The white button light will stay lit or flash slowly after a puff when the battery level is high. On the contrary, the light will flash in frequency.

Battery Level	Light Condition
60%-100%	Stay lit
30%-59%	Slowly flashes
10%-29%	Moderately flashes
0-9%	Flashes in frequency

### Precautions

1. Only have your iJust 2/iJust 2 Mini Kit repaired by Eleaf. Do not attempt to repair the unit by yourself as damage or personal injury may occur.
2. Do not leave the iJust 2/iJust 2 Mini Kit in high temperatures or damp conditions, otherwise it may be damaged. The appropriate operation temperature is within 0°C to 45°C while charging and -10°C to 60°C while using.
3. Do not attempt to combine the iJust 2/iJust 2 Mini Kit with parts from other brands of e-cigarettes. If it is damaged in this way, our company will not take on responsibility and your warranty will be void.

### Warnings

1. Please keep out of reach of children.
