

236 Mounting Combination Screw 1/8" Gap x 1-3/8" Thread Specification Sheet

DESCRIPTION

The 236 Mounting Combination Screw | 1/8" Gap x 1-3/8" Thread, is a unique screw designed to be used with Star Hangers Systems insert fasteners from the 200 Series. The 236 Mounting Combination Screw consists of 4 components; Head, Neck (Gap), Shoulder (permanent washer), and Thread.

Note: Do not overtighten or countersink the screw or it will no fit into the insert. Screw can be adjusted to accommodate for uneven surfaces.
