**DIVA**  
**FLUID**

New Patented sliding system equipped with next generation Fluid soft-closing technology.  
Nuovo sistema di scorrevoli brevettato con fermi ammortizzati dotati della tecnologia di ultima generazione Fluid.

# DIVA FLUID

PATENTED

**Diva Fluid** is the **new patented sliding system dedicated to design doors**, shaped by exposed aluminium tracks and **Fluid next generation soft-closing technology**.

**Diva Fluid** is featured by minimal style thanks to optimized sliding trolleys built-in the door with a totally updated milling pattern, meanwhile **Patented Fluid dampers are totally concealed into the tracks** in order to stand out the original design of the door. The exposed aluminium sliding tracks are available in various modern finishing solutions according to latest architectural and aesthetical trends.

**Diva Fluid** è l'**innovativo sistema scorrevole brevettato con fermi ammortizzati Fluid di ultima generazione**, dedicato a porte di design.

Caratterizzato da uno stile minimalista, il nuovo sistema **Diva Fluid** con scorrimento frontale esalta il design originale della porta con i nuovi scorrevoli ottimizzati e nascosti grazie alla nuova lavorazione semplificata, mentre i **fermi brevettati Fluid risultano completamente nascosti nei binari** in modo da azzerarne l'impatto visivo.

I binari di scorrimento sono disponibili in varie soluzioni di finitura moderne, coerentemente con le ultime tendenze estetiche e di architettura.

## Easy mounting

New Diva Fluid **assembling process has been simplified** thanks to new support jig, developed to guide installers step by step and to **grant the best functionality possible** of the system.

**PATENTED**

## Facile da montare

Il **processo di assemblaggio** del nuovo Diva Fluid è **stato semplificato** grazie alla nuova maschera (dima) di supporto, sviluppata in modo da guidare gli installatori passo dopo passo e per **garantire la miglior funzionalità possibile** del sistema.

## Safety first

The new patented anti-jumping system allows to grant the maximal safety to all installers and end-users, avoiding the door to fall in any circumstance.

## La sicurezza prima di tutto

Il nuovo anti-sganciamento brevettato permette di garantire la massima sicurezza per tutti gli installatori e gli utenti finali, impedendo alla porta di cadere in qualsiasi circostanza.
