

## LINO CHRISTMAS CARD

You will need: Blank cards, drawing, pencil, tracedown paper, pencil, lino tool, relief printing ink, baren.

**Step 1)** Print or draw your design onto paper.

**Step 2)** Trace your design in reverse using a lightbox or window.

**Step 3)** Use a piece of tracedown to transfer your design onto the lino.

**Step 4)** Carve out the unwanted areas of the lino using a lino tool.

Leave any areas that you would like to be printed.

**Step 5)** Ink up the lino using a roller.

**Step 6)** Place the card on top of the lino. Rub a baren over the back on the card to transfer the print.

**Step 7)** Lift off your card to reveal your print. Use a cloth to clean the excess ink off the lino.

**Step 8)** Use the lino tool to remove any areas of the print that you wish to remain white.

**Step 9)** Ink up the lino with black ink.

**Step 10)** As before, place your card on the lino and rub with a baren.

Lift off to reveal your two layered print!
