

SAFEPRINT CHRISTMAS CARD

You will need: Blank cards, Safeprint, pencil, craft knife, biro, block printing ink, two rollers, inking tray.

Step 1)
Draw your shape onto safeprint using a pencil. Cut it out using a craft knife.

Step 5)
Roll the ink onto the safeprint.

Step 2)
Unscrew the end of a biro and use it to press circles into the safeprint.

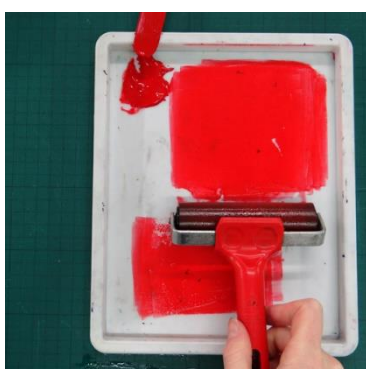

Step 6)
Place the safeprint face down on the card. Use a dry roller to roll all over the back of the safeprint to transfer the print.

Step 3)
Use the end of the biro ink tube to press smaller dots into the safeprint and add detail using a sharp pencil.

Step 7)
Carefully lift off the safeprint to reveal your print!

Step 4)
Roll out a thin layer of block printing ink onto a tray.
