

TRANSPARENT RELIEF PRINTING BLOCK

Step 1)
Draw your image onto a sheet of paper and place under the transparent block.

Step 5)
Thinly roll out your block printing ink and apply an even coat using a roller.

Step 2)
Cut the paper to the same size as the block and place under the block on a bench hook.

Step 6)
The inked up block ready for printing.

Step 3)
Cut out the background of the block to give an interesting texture.

Step 7)
Place your block on a hard surface, inky side up. Place your paper on top of the block.
Use a clean roller to press the ink from the block to the paper, you could also use a wooden spoon or a brayer.

Step 4) The finished block.

Step 8) The finished piece!
