

# Nylon Glove Liners

**Ivanhoe™**

## 100% Nylon Gloves

**Full Finger Glove Liners** are available made of 100% nylon material. Glove liners are thin enough, 0.015 gauge, to be worn under gloves to reduce perspiration build-up over extended wear. Liners are breathable, whisking perspiration away when worn under any liquid proof glove.

A smooth fit will not compromise tactile sensitivity making these gloves ideal for use where acute touch sensitivity is required. Gloves are ambidextrous and one size fits all. Lint-Free nylon makes this glove compatible for all applications. 1 dozen gloves per pack.

**Nylon Half Finger Glove Liners** allow for more tactile sensitivity. Ambidextrous, one size fits all. 1 dozen gloves per pack.

**Applications:** Cleanroom, quality control, packaging, general use.
