

Safety Eye wear - Classics

Classic Safety Glasses

Pilot™

The metal frame is lightweight and does not intrude into peripheral vision. Top and side shields are clear for enhanced visibility. Covered metal behind the ear and an adjustable bridge, ensure comfortable extended wear. 99.9% UV protective, anti-fog, scratch resistant lenses.

ANSI Z87.1

Mariner™

The clear, color tinted frame is lightweight, and does not intrude into peripheral vision. Top, bottom, and side shields follow the contour of the face for enhanced visibility. 99.9% UV protective, anti-fog, scratch resistant lenses.

ANSI Z87.1

Navigator™

The amber frame is lightweight and durable. Large 54mm lenses and wide side shields for versatile coverage. 99.9% UV protective, anti-fog, scratch resistant lenses.

ANSI Z87.1

Applications: Construction, machining, milling, industrial, laboratory and similar industries requiring eye protection from particulates and splash.

Explorer™

The lens is a single piece of tough polycarbonate with full side shields for impact protection. The black frame fits close to the face to minimize peripheral intrusion. 99.9% UV protective, anti-fog, scratch resistant lenses.

ANSI Z87.1

Features and Benefits

Lenses

- Strong Polycarbonate
- Anti-fog
- Scratch Resistant
- 99.9% UV Protective
