

Safety Eyewear - Traditional

Qvis™

Traditional Safety Glasses

Defender™

These safety glasses feature lightweight wrap around protection. The frames are adjustable at the temple for a comfortable, custom fit. The molded nose bridge prevents slipping. 99.9% UV protective, available in anti-fog, scratch resistant lenses. **ANSI Z87.1-1989**

Sentinel™

The light frame and wrap around lenses provide excellent coverage with the addition of a clear browguard. A molded nose bridge prevents slipping, and an adjustable temple length provides a custom fit. 99.9% UV protective, available in anti-fog, scratch resistant lenses.

ANSI Z87.1-1989

Squire™

These frameless polycarbonate lenses incorporate a browguard and wrap around styling for full protection. The frameless design means zero peripheral distraction. Adjustable temples provide a comfortable, custom fit. 99.9% UV protective, available in anti-fog, scratch resistant lenses.

ANSI Z87.1-1989

Axis™

These frameless polycarbonate lenses incorporate a browguard and wrap around styling for full protection. Temples are fully adjustable. Both the length and angle can be customized for a comfortable, secure fit. 99.9% UV protective, available in anti-fog, scratch resistant lenses. **ANSI Z87.1-1989**

Applications: Construction, machining, milling, industrial, laboratory and similar industries requiring eye protection from particulates and splash.

Features and Benefits

Lenses

- Strong Polycarbonate
- Anti-fog
