

## Product Description

Comfort Deluxe® is an Infrared Zone Heater ideal for Small to Large Rooms. Some of the top features of the Comfort Deluxe® heater include:

- Copper PTC – no heating elements bulbs to ever have to replace.
- ETL Listed and Verified
- 3-prong 14-gauge power cable
- 2-Year Warranty

The AirNmore® Comfort Deluxe® Heater sets a new standard in the portable infrared space heater industry.

Comfort Deluxe®, ETL Listed was constructed using copper wiring. It includes a Copper PTC which means no heating elements will ever need to be replaced. In addition, it includes a heavy duty 3-prong, 14-gauge grounded power cord. As a result, it is one of the most efficient room heaters in its class. The Comfort Deluxe® was designed with user safety in mind. This portable heater has industry leading dual heat sensors. As a result, high temperatures are limited and the unit remains cool to the touch. The heater contains safety sensors that provide advanced tip-over protection. Therefore, it is the perfect choice for home environments with pets and small children.

In addition, when power outages occur, the 'Memory Mode' feature in the Comfort Deluxe® remembers all your settings when power is restored.
