- Rated Input: 5V/2A
- Rated Output: 5V/1A
- Charge Efficiency: >76%
- Transmission Distance: <6mm
- Devices Supported: Qi wireless charging compatible devices

Accessory list

Micro USB Charging Cable

Assembling the stand

- Open the stand along the hinge
- Raise the backplate of the top side of the stand by gently pulling upwards from the centre of the stand (not along the sides)
- Insert the angled raiser from the bottom side of the stand into one of the slots at the rear of the top side of the stand at the desired angle
- Flip out the phone stand at the bottom using the pull tab

How to Use

- Plug the wireless charge stand into a USB outlet (computer, wall charger, etc.) using the micro-USB to USB cable provided. The LED light will be blue.
- Place your compatible device against the charging plate. Your device should start charging immediately and the LED light will be red.
- If your device doesn't begin charging immediately, try to reposition.

Safety Instructions

- Do not throw the charge stand into fire or try to heat it. In such situations it might burn, explode or release toxic gas
- Do not try to open the charge stand by yourself or break it
- Do not put the charge stand in water or make it wet
- Do not use Powerpod if you notice it is leaking, heating itself, out of shape, smelling or any other abnormal phenomenon
- Do not use the Powerpod at higher temperature than 60 C. The recommended ambient temperature is between 15 C and 25 C
