

## **New features**

- Effects can be modified by contrast, lift, saturation and blur (for desktop version only)
- Enhanced effect loading
- Enhanced Voyager network settings
- Improved effect saving on lamp for a reboot
- Improved project loading and exporting
- Improved presets adding
- Improved lamp network switching
- Improved color wheel usage on the desktop version
- Minor enhancements in video mapping

## **Known issues**

- Spout Streaming from Windows sometimes renders the app not responding
- On some OSX versions, if the app is not visible, the stream to lamps gets choppy
