Easter Cards

Paper Circuits Projects

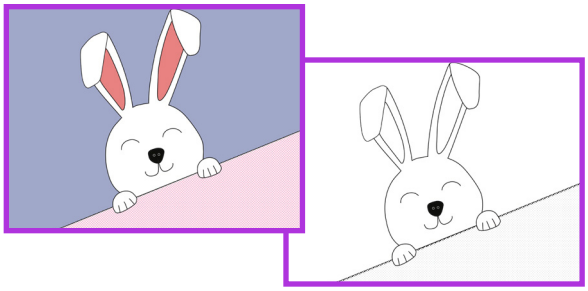
Each of the cards in this eBook can be made with our Paper Circuits Kit, or using Maker Tape, your own CR2032 batteries, and 10mm Jumbo LEDs. We've included ready-to-make full color versions as well as black & white versions that can be colored by hand. Print each card as a two sided print and then cut them out with scissors. Additional projects, videos, paper crafting guides, eBooks, and educational resources can be found at BrownDogGadgets.com



Cute Bunny

BROWN DOG Gadgets

Learn, Create, and Inspire–Even on a Budget

Creating a project from scratch can be difficult for the casual builder. Finding the right directions, the right parts, and the right tools—all at the right price—can be a major hurdle.

At Brown Dog Gadgets, we've created kits and projects for creators of all ages and budgets. Follow our step-by-step project directions and learn more with our classroom resources or find individual parts to dream up your own creations. No matter how or what you create, our products can help you learn the basics of electronics, circuitry, and solar energy.

Find additional eBooks, crafting guides, videos, directions, and educational resources at BrownDogGadgets.com. Contact us for educational discounts and free professional development classes.
