

Paper Craft Grumpy Ghost!

YOU WILL NEED:

TIME:
5-10 MINUTES

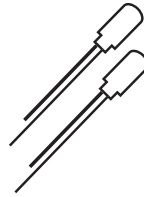

Paper & Vellum
(Colorful Construction Paper or Card Stock.)

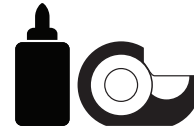

Scissors or Exacto Knife

Copper Tape

2 LEDs

Glue, or Adhesive Tape
(To attach back layer)

1 Battery

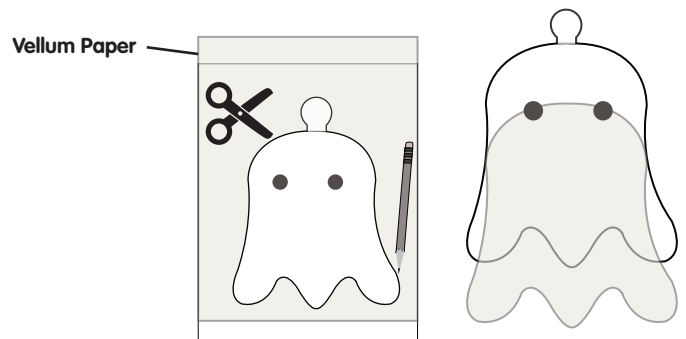

1 Paper Clip

Make an adorable Halloween Friend with glowing LED eyes from conductive tape and paper with Brown Dog Gadgets Conductive Tape Kit.

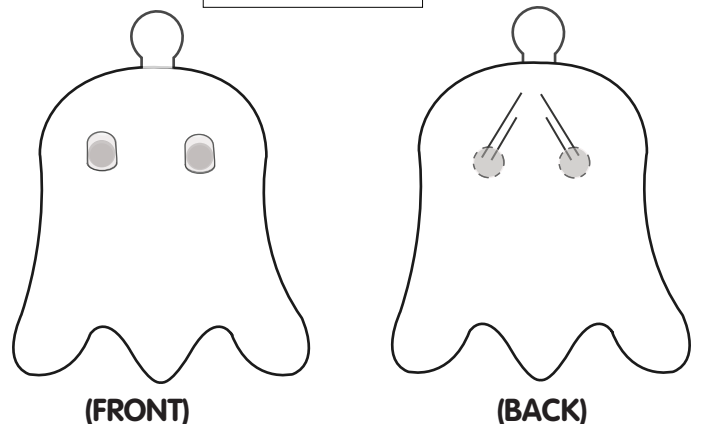

1 **CUT GRUMPY GHOST**

Cut grumpy ghost template. Tape the white construction paper and translucent vellum together. Next cut out the ghost shape from both pieces of paper at the same time.

2 **INSERT LED'S**

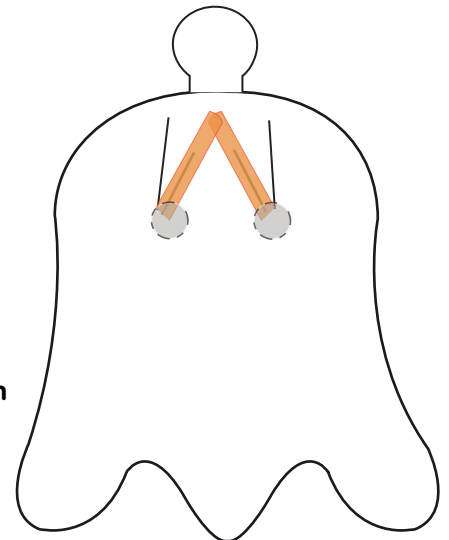

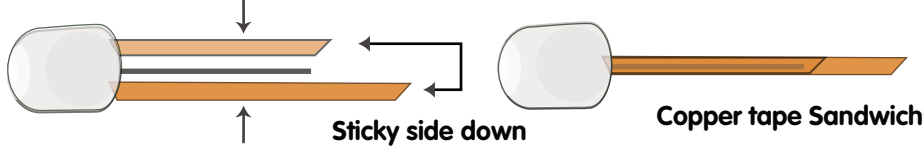

Cut a tiny slit in the paper. Place your LEDs where the dots are on the white paper. Stick both legs through the slit.

Please visit www.BrownDogGadgets.com for more great ideas & info.

3 **APPLY COPPER TAPE**

On the back of the white constructive paper, add copper tape diagonally from the LEDs towards the center of the ghost. Secure the short leg in a tape sandwich.

4 **ATTACH BATTERY**

Battery:

Place a battery at the end of the tape below the tab (+ side up). Place long LED legs on top of the battery. Fold the tab to cover the battery. Your LED should light up!

Decorate:

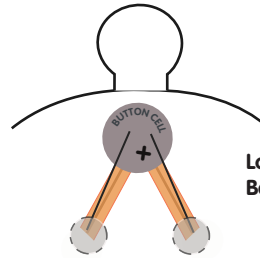

Add the vellum sheet over the ghost. Draw a mouth with a black sharpie .

If your LEDs do not light up

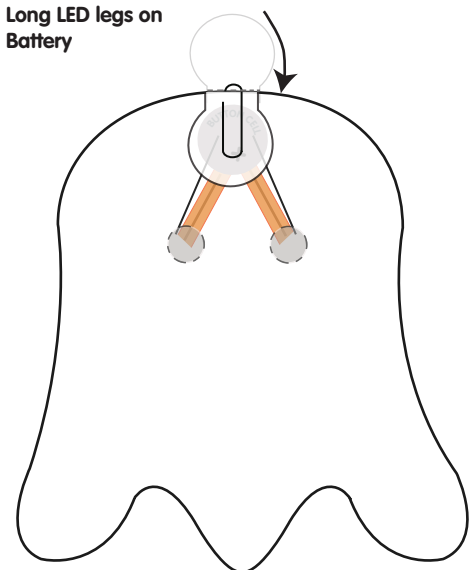

- Make sure tape is touching the battery on each side
- Make sure one piece of tape is not touching both sides of the battery
- Try flipping the battery over (+ side down)

If only one LED lights up

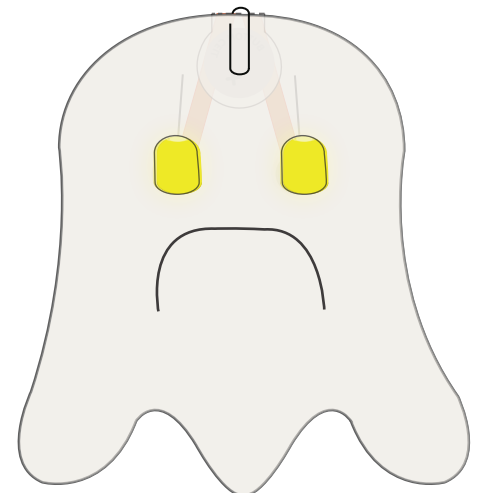

- Make sure both LEDs have a good connection
- Flip the battery over. If the other LED now lights up, the long leg is on the wrong side
