

LED Name Tag

Lesson Plan

LESSON OVERVIEW:

The LED Name Tag activity is appropriate for upper elementary school through adult learners. This activity is a great icebreaker for advisory, first day of class, professional development experiences or an art class. Illustrated, step-by-step instructions for students are included.

LEARNING OUTCOMES:

Learners will be able to express their individuality via their nametag design.
Learners will understand the basics of electricity and circuitry.
Learners will be able to practice and enhance their ability to follow directions.

TIME:

15-20 Minutes

MATERIALS:

- Acrylic Blank
- Battery
- Safety Pin
- 2 X LED
- 2 X Paper Clip
