

Dino Friend !

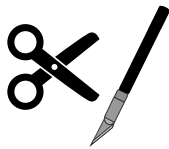

YOU WILL NEED :

TIME:
20-30 MINUTES

Paper
(Colorful
Construction Paper
or Card Stock.)

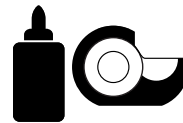

**Scissors or
Exacto Knife**

**Copper
Tape**

**1
LED**

**Glue, or
Adhesive Tape**

**1
Battery**

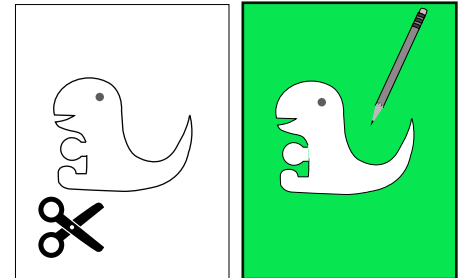

**1 Paper
Clip**

Make an adorable Dinosaur Friend with a glowing LED eye from conductive tape and paper with Brown Dog Gadgets Conductive Tape Kit.

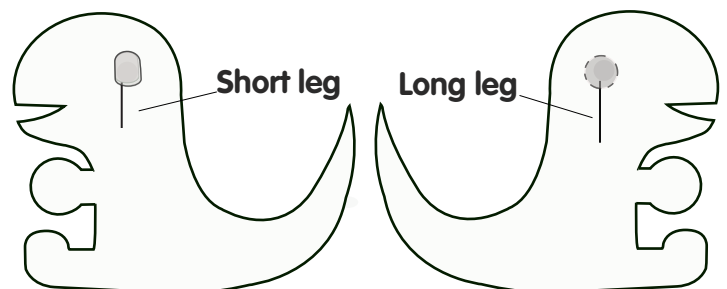

1 CUT OUT T-REX DINO

Cut out the Dino template and trace on colored paper.
Then cut out the shapes you traced.

2 INSERT LED's

Cut a tiny slit in the paper. for the eye.
Stick the longer leg through the slit, so
there is one leg on each side of the paper.

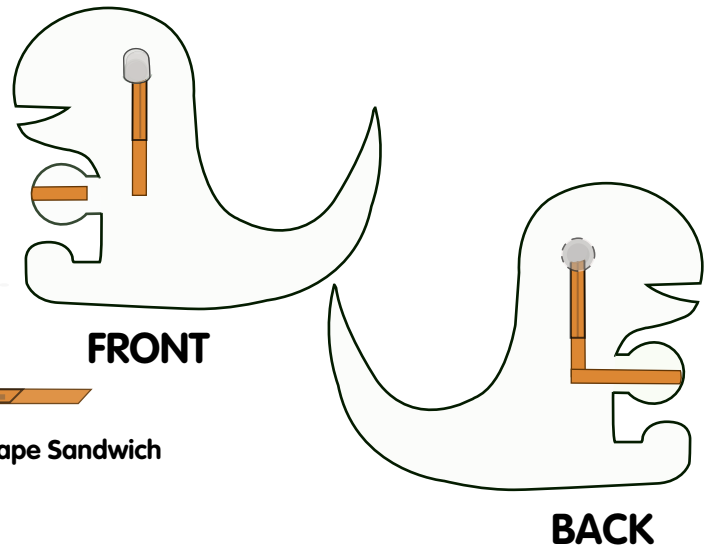

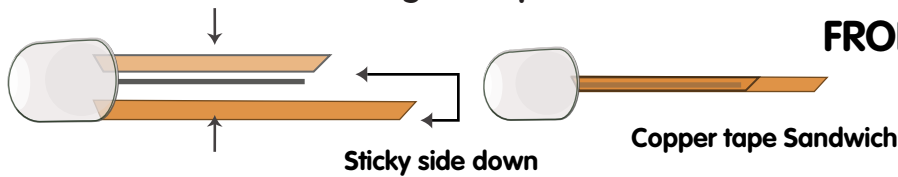

FRONT

BACK

Please visit www.BrownDogGadgets.com for more great ideas & info.

3 **APPLY COPPER TAPE**

On the front side add tape from the LED to the arm as shown. Secure the LED leg with a tape sandwich. On the back side add tape from the LED to the tab and folded to the front. Secure the back leg in a tape sandwich.

4 **ATTACH BATTERY & DECORATE**

Battery

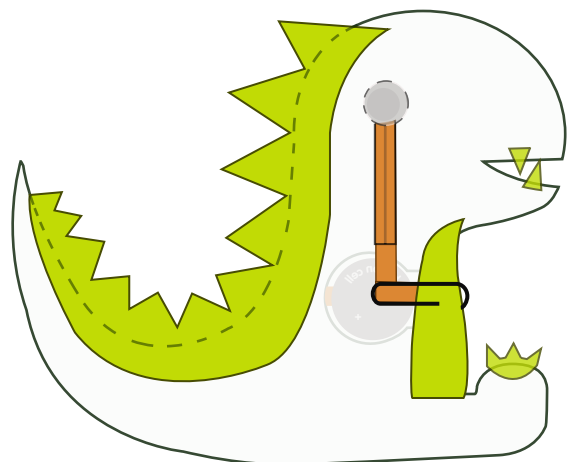

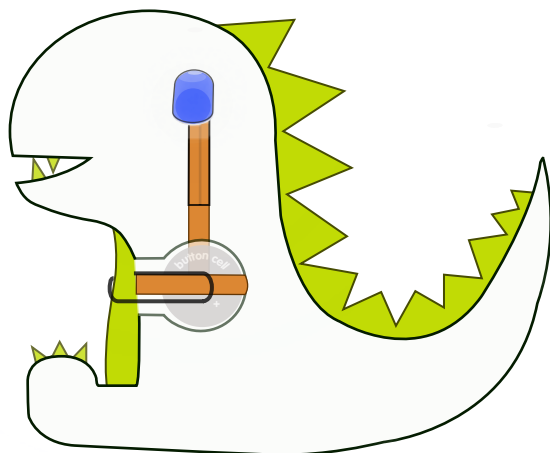

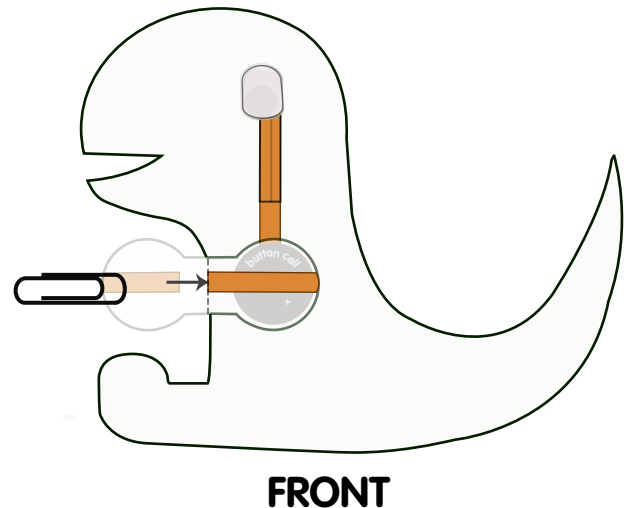

Place a battery at the end of the tape below the tab (+ side up). Fold the tab to cover the battery. Your LED should light up! Use a paperclip to hold the battery in place.

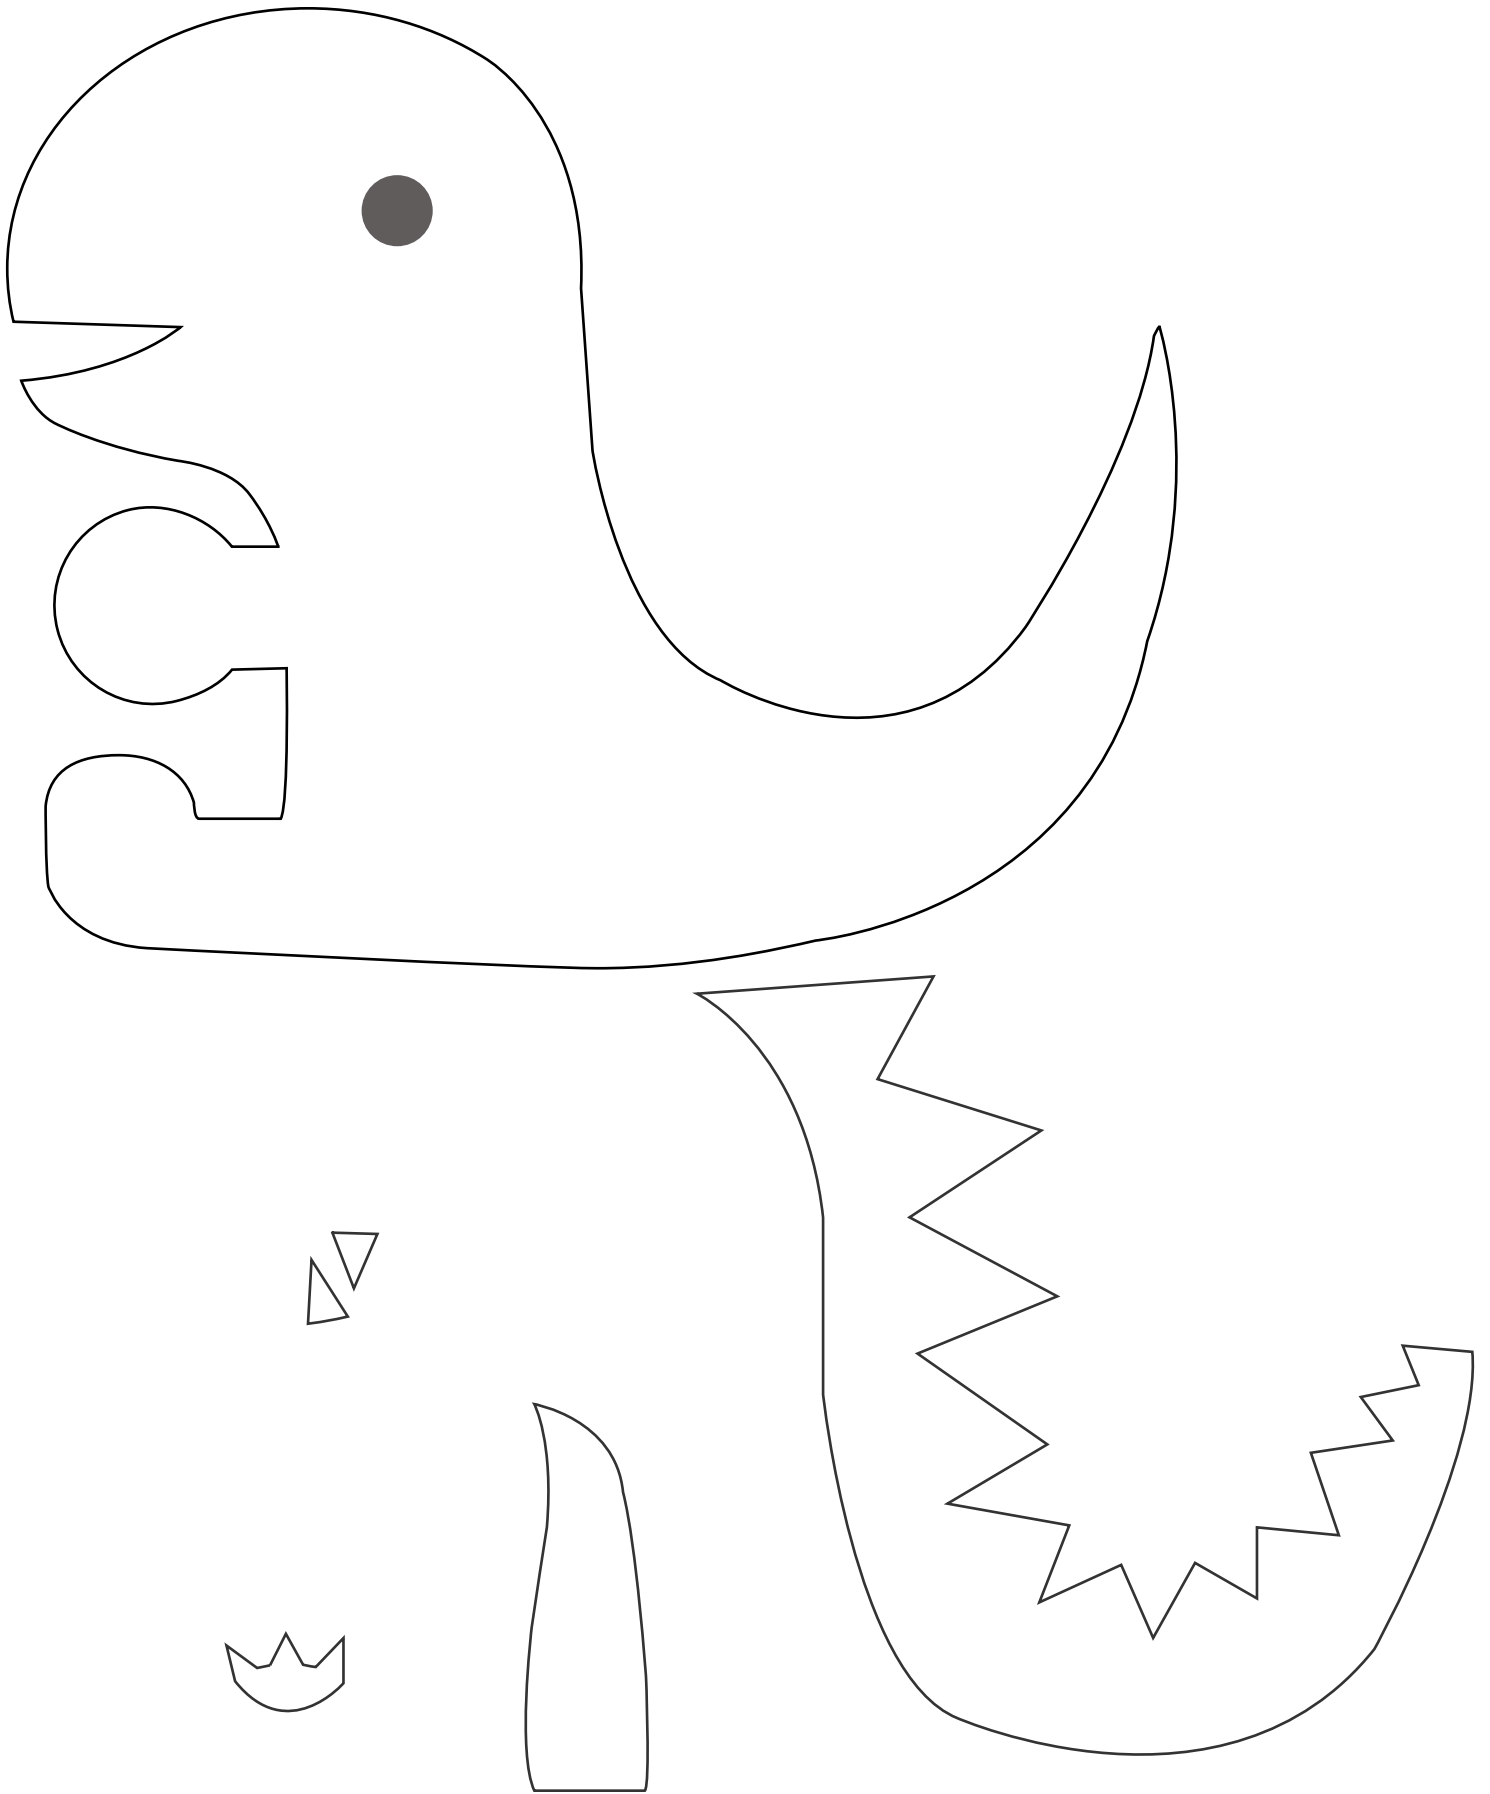

If your LED does not light up

- Make sure tape is touching the battery on each side
- Make sure one piece of tape is not touching both sides of the battery
- Try flipping the battery over (+ side down)

Decorate:

Add spikes and teeth to your T-Rex. Use template to trace on color paper and cut. Tape or glue the pieces onto the back of T-Rex. You're all set. Decorate your Dino Friend however you want!
