#### DESCRIPTION

The stem floor system comes in unlacquered brass or black powder coated stem with a 350mm (13.8") diameter base.

The 73 is formed by blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. Each 73 is completely unique in proportion, size and shape.

+ **The brass used in our Stem Series is untreated and, as such, will develop a natural patina over time. To avoid any marking or tarnish on the brass during handling and installation, please use the gloves provided in your shipment.**

+ To maintain your fixture, please regularly dust with a lint-free cloth. If further cleaning is required, dampen a lint-free cloth with water only and wipe gently to remove dust or debris.
