(4.3-4.7")

PENDANTS:	SiX
MOUNTING:	142mm (5.6") x 35mm (1.38")
LAMPING:	1.5w LED
STEM LENGTH	1.8m (6') long stem
ADDITIONAL EXTENDERS	153mm (6°) / 305mm (12°) / 914mm (36°) / 1524mm (60°)
MATERIALS:	blown glass, electrical components, unlacquered brass or matte black brass stem, black or white canopy
WEIGHT:	approximately 14.5kg (32lb)
POWER SUPPLIES:	integral

## DESCRIPTION

The stem ceiling mounted system comes in unlacquered brass or matte black stem with a 142mm (5.6") diameter mounting plate rated for ceiling use.

A white glass bubble is captured inside a fine copper mesh basket and then plunged into hot clear glass. Air is blown into the matrix to gently push the white glass through the mesh, creating a delicate pillowed form that is suspended inside the thick outer layer of clear glass. Sometimes the copper mesh basket folds and crinkles, adding specificity to each piece.

## NOTES

+ Purchase replacement lamps online at www.bocci.com/shop/bulbs

+ Power supply can be remote mounted with 94mm (3.7") x 6mm (0.24") canopy.

+ The brass used in our Stem Series is untreated and, as such, will develop a natural patina over time. To avoid any marking or tarnish on the brass during handling and installation, please use the gloves provided in your shipment.

			REMOTE ine voltage	canopy cover	
1 Thread the cover cap on one end of the stem. Note: Bocci recommends wearing thin gloves during installation to protect the stem finish and the glass surface.	2 Connect the stem pieces by threading the stem connector to the stems. Note: This step is only necessary for overall stem lengths longer than 1.8m (6).	3 Thread the pendant mounting plate onto the stem. Carefully insert provided lamp into socket.	<ul> <li>4</li> <li>Connect power supply to line voltage.</li> <li>i. Connect input low voltage wire to 12V DC output wires by feeding the wires through the slots on the mounting plate.</li> <li>ii. Connect the black wire to line wire and white wire to neutral wire.</li> <li>iii. Ensure that line voltage is not active during this part of the installation!</li> <li>Note: As an option, Bocci recommends mounting power supplies remotely in a close, accessible and hidden location for ease of long term maintenance. Installation to be done by certified personnel to ensure compliance with the code.</li> </ul>	<ul> <li>5</li> <li>The client is responsible to ensure fasteners are attached to a robust structural substrate.</li> <li>Affix mounting plate to surface with fasteners provided.</li> <li>Thread canopy cover onto the mounting plate.</li> <li>Thread on the stem to canopy.</li> <li>Turn power to fixture on.</li> </ul>	<ul> <li>Gently thread pendant onto the stem. Be sure to carefully place the pendant so as not to damage the lamp during installation.</li> <li>Clean fingerprints from fixture surfaces.</li> <li>For additional assistance, please contact Bocci:</li> <li>Vancouver sales@bocci.com www.bocci.com</li> <li>Berlin europe@bocci.com www.bocci.com</li> <li>US Patent Pending EU Patent # 003611144-0001 to 0004</li> <li>Made in Vancouver, Canada</li> </ul>
