# Ray

SOFAS

Antonio Citterio

## Description

---

Aesthetical and functional, Ray is a modular system that starts with linear elements, chaise longues and terminal elements, which can be used to form all sorts of configurations – even corner and peninsula models. Its strong points are linearity and simplicity, enriched with tailoring elements such as the blanket stitch in the same colour or a contrasting hue, that enhances the removable covers. A main feature is the die-cast U-shaped foot that, along with the seat cushion height, contributes to creating an image of Ray as a particularly elegant piece with balanced forms.

# Technical information

---

## **Internal frame**

tubular steel and steel profiles

## **Internal frame upholstery**

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

## **Internal frame upholstery (RY183P)**

shaped polyurethane of different density, polyester fibre cover

## **Seat cushion upholstery**

shaped polyurethane of different density, sterilized down, polyester and cotton fibre cover

## **Back cushion upholstery (RYG235N-RYLG275N)**

shaped polyurethane, polyester fibre, polyester and cotton fibre cover

## **Back cushion (RY48C-RY72C-RY72CP)**

polyester fibre, box style typology, blanket stitching

## **Feet**

die-cast aluminium

## **Ferrules**

thermoplastic material

## **Cover**

fabric or leather (blanket stitching)
