

**BONALDO**

# Artika, Artika si, Miss Artika

Designer: Gino Carollo

The distinguishing feature of the Artika chair, which is clearly evident from the front, is its backrest that constitutes a single whole with the seat and opens out at the top, giving the observer the idea of expansion and breadth. Artika is modelled with dynamic and comfortable lines, rigorous and solid shapes, according to harmonious proportions and structural solutions of strong impact. The seat is covered in leather, eco-leather or

fabric, materials chosen to last a long time and to ensure maximum versatility of use and numerous possibilities of colour combinations. The lower part, in metal, is made with the classic four legs or with an original sled-shaped base (Artika si); for both solutions it is possible to choose from the many colours of painted metal or opt for refined finishes. A new version, completely covered, is also available.
