

BONALDO

Bahia, Bahia S

Designer: Mauro Lipparini

The assembly of curved shapes and simple tubular metal elements creates a balanced shape, which is ideal both in residential settings and in smart contract environments (such as offices, waiting rooms, hotel lobbies). The main characteristic of Bahia is the curved backrest that extends forward in a single line, allowing the arms to rest freely while enveloping the user's back for maximum comfort. Upholstered in leather, eco-leather or fabric, it

is also available in the Bahia S version, with a square-shaped backrest. Comfortable from the first glance, thanks to its organic shapes, the collection is also characterised by slender legs in metal, flexing outwardly: and the frame, thin but rigorous, that highlight, through contrast, the sinuousness of the backrest and seat.
