

BONALDO

Combination

Designer: Alain Gilles

The union of the circle, rectangle and half sphere creates an object whose perception and interpretation vary according to observer's point of view. Combination is in all respects an element that is always original, with a variable character: when seen from the front, the rectangular element looks

very wide; the same element, when observed from the side, on the other hand, appears to be extremely slender. Combination is a coffee table available in two different heights and in numerous painted metal finishes: among them, the elegant bronze, lead, pearl gold and platinum shades.

Frame and top

Metal

The samples above represent the complete range of materials and finishes available for this product (regardless of the top shape or size, in the case of tables). Fabrics, eco-leather, leather and emery leather shown in this website are a selection. Colors and finishes are approximate and may slightly differ from actual ones. Please visit Bonaldo dealers to see the complete sample collection and get further details about our products.
