

ENKI

Design by
Evangelos Vasileiou

Description

Enki is the first seating collection Evangelos Vasileiou has designed for Ligne Roset. Intended to respond to multiple requirements, its pure, elegant lines lend themselves to both stand-alone elements (settees, armchair, ottoman) and corner compositions (sectionals), with a range of 18 items in total. To make it possible to tailor both looks and comfort, there is a choice between two leg heights (4" - 10 cm or 5" - 13 cm), giving a seat height of either 16 1/4" - 41 cm or 17 1/4" - 44 cm, and a choice of two heights for the back cushions (high version 20" - 51 cm; low version 15 3/4" - 40 cm).

COVERING MATERIALS

This classic seat, which offers both stand-alone settees and armchairs and corner compositions, is most ideally covered in leather or Alcantara, but also works well in wools or velvets. It may be rendered in a bi-material and/or bicolor interpretation: structure + seat in one color/material, back cushions in another.
