# Roll

Designer: Dondoli and Pocci

The ability to fix Roll bookcase to the ceiling, as well as to the wall, makes it a furnishing element that can also be installed in the centre of a room to divide it into two spaces. Mounting it to the wall takes place by means of supports composed of metal tubes with lead finish; both the shelves and

the details that come out of the metal tubes are available in the same finish as the supports or in different finishes, for a play of contrasts of utmost elegance. The modularity of the Roll bookcase makes it suitable for any size wall, both in the home or office.
