Lil™ envelope

36% weight reduction. A HUGE reduction in weight vs previous generation solid board envelope.

Suitable for shipping lithium-ion batteries. Corrugated is a must for conforming to EU postal regulations.

Stronger material. Far Superior protection from damages due to corrugated strength.

Still 100% UK made from recycled and recyclable corrugated paper that is certified sustainable by the FSC®.

Plastic free tear-strip. Our new & improved herringbone perforations ensure easy opening.

Versatility. The ability to form box-like capacity for irregular items usually only fit for a jiffy bag or box.

Price per unit
