## Relief Balm

### Anti-Itch Remedy

Give your skin instant relief from bug bites, itching, inflammation, or other minor irritations with this soothing vegan balm, packed with anti-inflammatory and antioxidant ingredients.

Powerful ingredients in an easy-to-apply balm, plus a delightful, sweet-spicy herbal scent, make this balm one you won't want to live without.

### BENEFITS

- + Itch-relieving—Relief Balm instantly cools skin and softens any itch, thanks to Indonesian Cajeput Oil (a cousin to tea tree with a far cooler name) and Eucalyptus Oil.
- + Anti-inflammatory—Colloidal oatmeal and arnica flower help to heal skin and reduce inflammation immediately upon application.
- + Moisturizing—A blend of shea butter and plant oils (coconut, avocado oil, sunflower, and jojoba) create a delightful base that hydrates without a greasy feel.
- + Easy to apply—Goodbye sticky salves and messy jars! Relief Balm's push-up tube and solid balm format makes application easy and mess-free.
- + Multi-purpose—Use it to relieve itching from a bug bite, calm minor skin irritations, or even as an arnica rub to soothe bruises or sore muscles.

### WHAT'S INSIDE

Kinfield's Relief Balm features cajeput and eucalyptus oils to instantly relieve any itch, along with colloidal oatmeal, turmeric, and arnica to calm inflammation and soothe skin.

These powerhouse actives are added into a deeply nourishing and hydrating base of shea butter and plant oils (including coconut, avocado, lemongrass, and jojoba).
